

MUHAMMAD BIN IMRAN

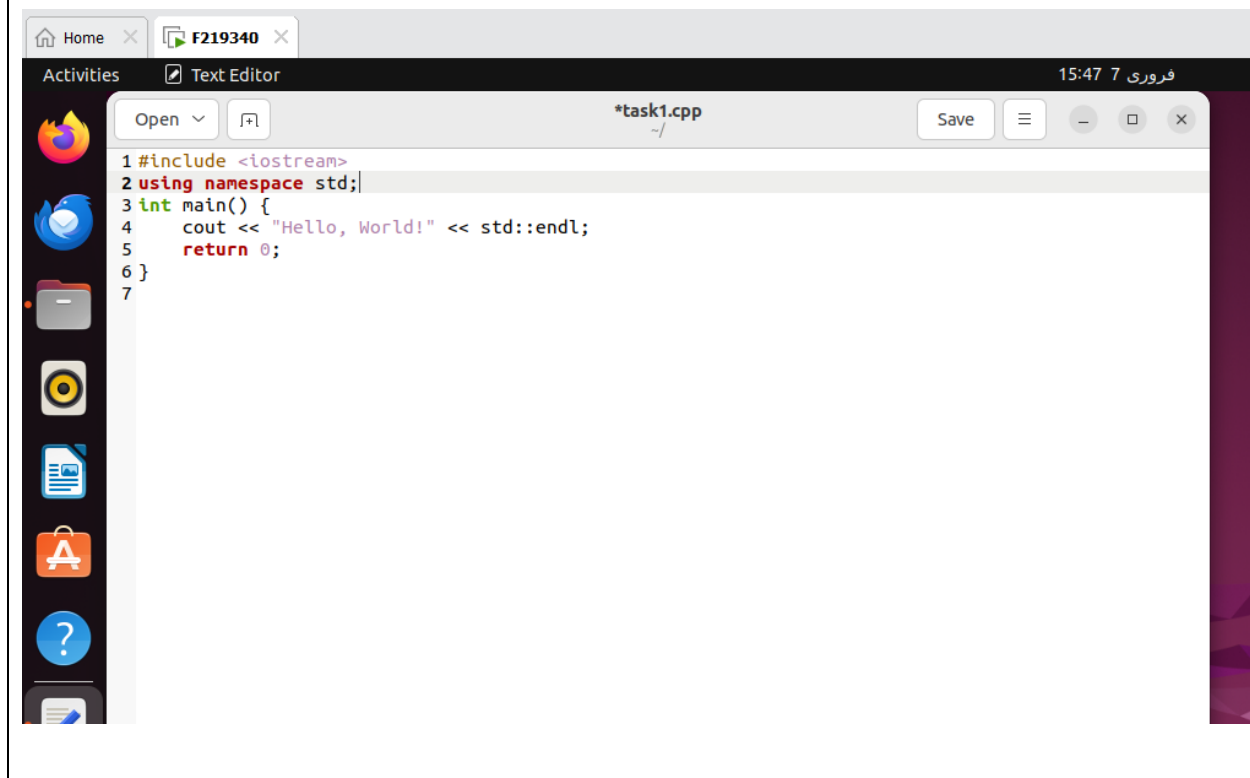

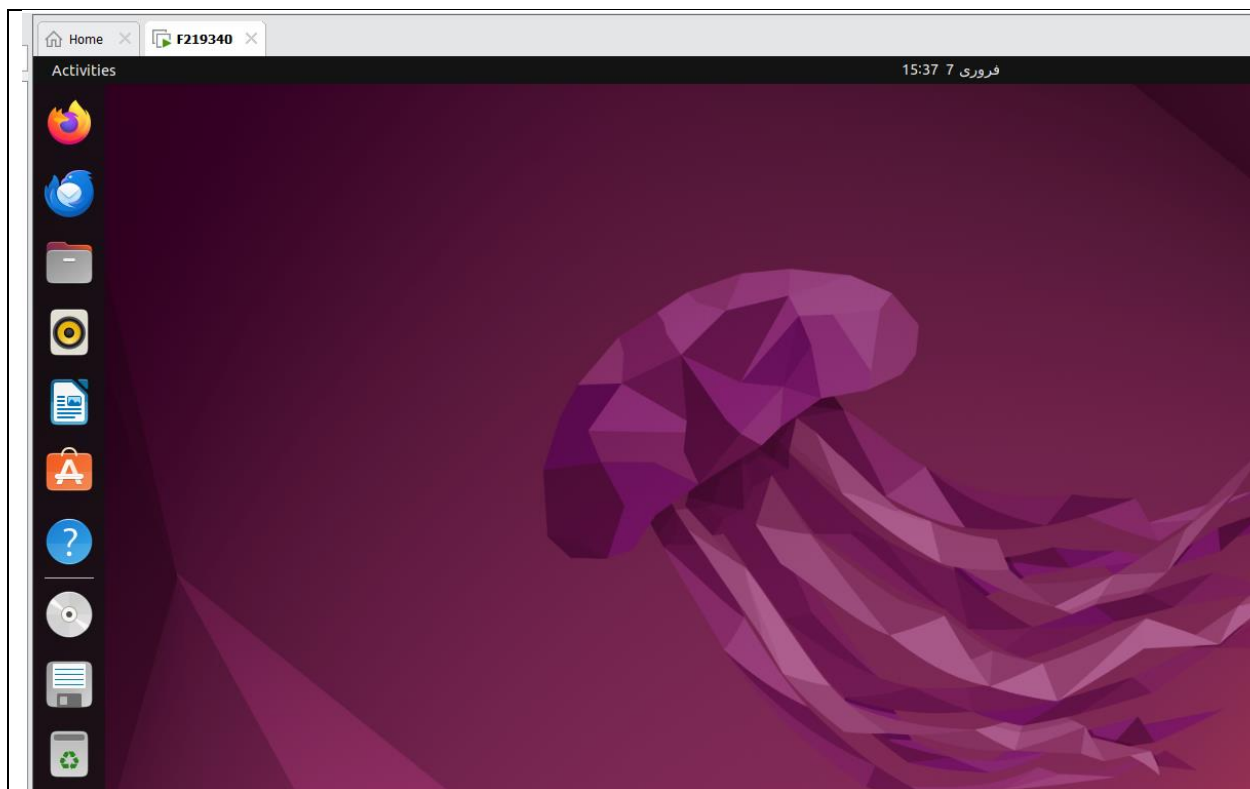

F21-9340

SECTION – 6E

LAB NO 3

## TASK NO 1

```
muhammad@f219340-virtual-machine: ~/Desktop
muhammad@f219340-virtual-machine:~$ cd Desktop
muhammad@f219340-virtual-machine:~/Desktop$ chmod +x task2.c
muhammad@f219340-virtual-machine:~/Desktop$ ./task2
Hello World!muhammad@f219340-virtual-machine:~/Desktop$
```

## TASK NO 2

Catenation of two text files located on the desktop.

```
muhammad@f219340-virtual-machine: ~/Desktop
muhammad@f219340-virtual-machine:~/Desktop$ cat file1.txt
Muhammad Bin Imran

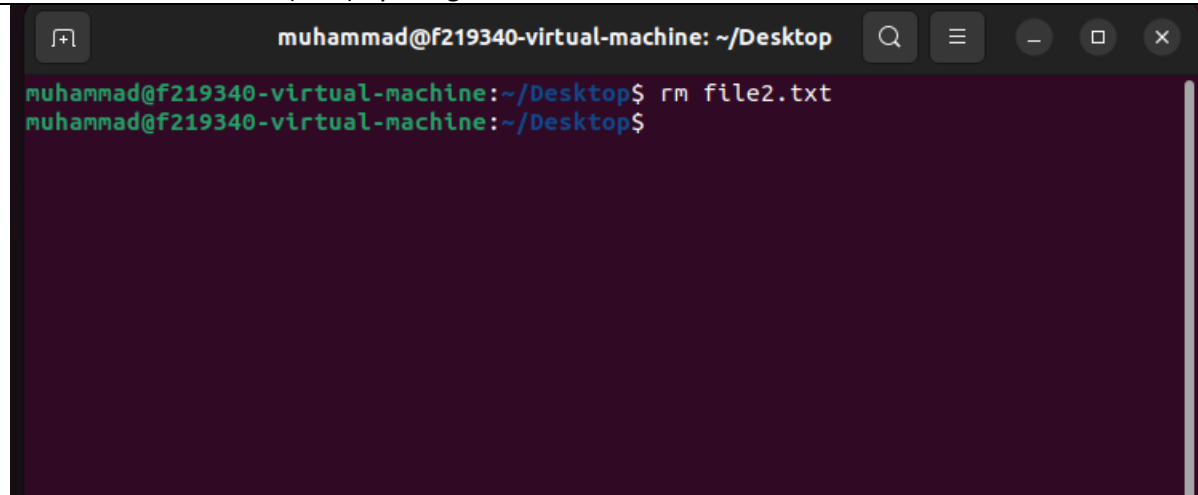

muhammad@f219340-virtual-machine:~/Desktop$ cat file2.txt
F21-9340

muhammad@f219340-virtual-machine:~/Desktop$ cat file1.txt file2.txt
Muhammad Bin Imran

F21-9340

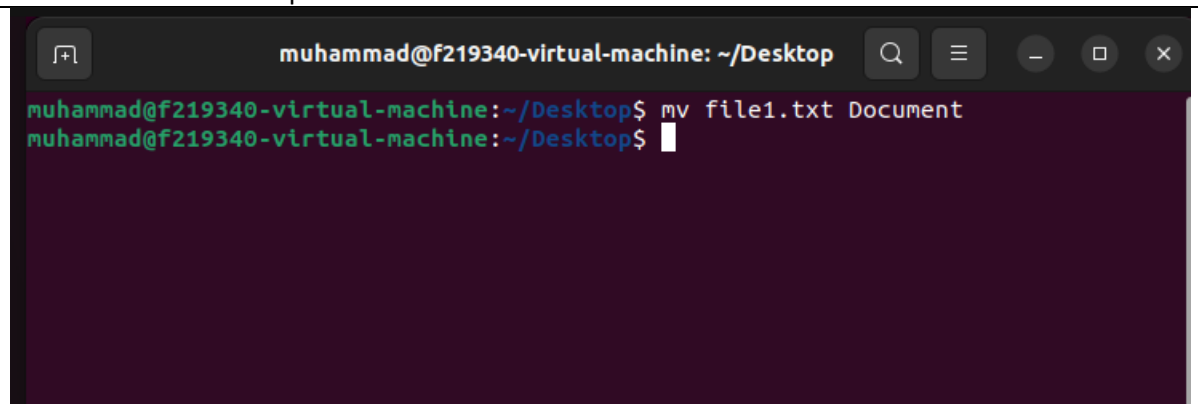

muhammad@f219340-virtual-machine:~/Desktop$
```

Deletion of the text file(file2) by using a command rm command

A terminal window titled 'muhammad@f219340-virtual-machine: ~/Desktop' with standard window controls. The prompt is 'muhammad@f219340-virtual-machine:~/Desktop\$'. The command 'rm file2.txt' has been entered and executed, resulting in a new prompt 'muhammad@f219340-virtual-machine:~/Desktop\$' on the next line.

```
muhammad@f219340-virtual-machine:~/Desktop$ rm file2.txt
muhammad@f219340-virtual-machine:~/Desktop$
```

Move file1 from desktop to Document Folder

A terminal window titled 'muhammad@f219340-virtual-machine: ~/Desktop' with standard window controls. The prompt is 'muhammad@f219340-virtual-machine:~/Desktop\$'. The command 'mv file1.txt Document' has been entered and executed, resulting in a new prompt 'muhammad@f219340-virtual-machine:~/Desktop\$' on the next line.

```
muhammad@f219340-virtual-machine:~/Desktop$ mv file1.txt Document
muhammad@f219340-virtual-machine:~/Desktop$
```

File 1 only has 1 line of text. The head command reads the first line from the text file, the tail command reads the last line from the file, the sort command sorts the unsorted text in the file, and the grep command finds the string from the text file.

```
muhammad@f219340-virtual-machine: ~/Desktop
muhammad@f219340-virtual-machine:~$ cd Desktop
muhammad@f219340-virtual-machine:~/Desktop$ head -n5 file1.txt
Muhammad Bin Imran

muhammad@f219340-virtual-machine:~/Desktop$ tail -n5 file1.txt
Muhammad Bin Imran

muhammad@f219340-virtual-machine:~/Desktop$ sort -n5 file1.txt
sort: invalid option -- '5'
Try 'sort --help' for more information.
muhammad@f219340-virtual-machine:~/Desktop$ sort file1.txt

Muhammad Bin Imran
muhammad@f219340-virtual-machine:~/Desktop$ grep "muhammad" file1.txt
muhammad@f219340-virtual-machine:~/Desktop$ grep "Muhammad" file1.txt
Muhammad Bin Imran
muhammad@f219340-virtual-machine:~/Desktop$
```

The Ls command shows all the files in the current position and the pwd command shows the current directory.

```
muhammad@f219340-virtual-machine: ~
muhammad@f219340-virtual-machine:~/Desktop$ ls
Document Documents file1.txt task1 task1.cpp task2 task2.c
muhammad@f219340-virtual-machine:~/Desktop$ cd
muhammad@f219340-virtual-machine:~$ pwd
/home/muhammad
muhammad@f219340-virtual-machine:~$
```

The Mkdir command creates a new directory rmdir removes the directory.

```
muhammad@f219340-virtual-machine: ~  
muhammad@f219340-virtual-machine:~$ mkdir CN  
muhammad@f219340-virtual-machine:~$ ls  
CN      Documents Music      Public Templates  
Desktop Downloads Pictures snap  Videos  
muhammad@f219340-virtual-machine:~$ rmdir CN  
muhammad@f219340-virtual-machine:~$ ls  
Desktop Documents Downloads Music Pictures Public snap Templates Videos  
muhammad@f219340-virtual-machine:~$
```

The cd command points the points the location of the text file and more command show the content of the file.

```
muhammad@f219340-virtual-machine: ~/Desktop  
muhammad@f219340-virtual-machine:~$ cd Desktop  
muhammad@f219340-virtual-machine:~/Desktop$ more file1.txt  
Muhammad Bin Imran  
  
muhammad@f219340-virtual-machine:~/Desktop$
```

The whatis command gives the brief description of the directory and list all the directory contents.

```
MKDIR(1)                                User Commands                                MKDIR(1)

NAME
  mkdir - make directories

SYNOPSIS
  mkdir [OPTION]... DIRECTORY...

DESCRIPTION
  Create the DIRECTORY(ies), if they do not already exist.

  Mandatory arguments to long options are mandatory for short options
  too.

  -m, --mode=MODE
        set file mode (as in chmod), not a=rwx - umask

  -p, --parents
        no error if existing, make parent directories as needed

  -v, --verbose
        print a message for each created directory

Manual page mkdir(1) line 1 (press h for help or q to quit)
```

```
muhammad@f219340-virtual-machine: ~/Desktop

muhammad@f219340-virtual-machine:~/Desktop$ whatis ls
ls (1)          - list directory contents
muhammad@f219340-virtual-machine:~/Desktop$
```

“who” command displays the login name, date and terminal.”whoami” command shows the user name. The” date” command shows the current time. The”clear” command clears all the whole screen. The”touch” command creates a new file and the “exit” command exits the machine.In this I give clear and exit command start with the capital letter that does not work

```
muhammad@f219340-virtual-machine: ~/Desktop
muhammad@f219340-virtual-machine:~$ cd Desktop
muhammad@f219340-virtual-machine:~/Desktop$ whatis ls
ls (1)                - list directory contents
muhammad@f219340-virtual-machine:~/Desktop$ who
muhammad tty2          2024-02-07 16:10 (tty2)
muhammad@f219340-virtual-machine:~/Desktop$ whoami
muhammad
muhammad@f219340-virtual-machine:~/Desktop$ Date
Command 'Date' not found, did you mean:
  command 'gate' from snap gate (9.3)
  command 'kate' from snap kate (23.08.4)
  command 'kate' from deb kate (4:21.12.3-0ubuntu1)
  command 'late' from deb late (0.1.0-14)
  command 'date' from deb coreutils (8.32-4.1ubuntu1)
See 'snap info <snapname>' for additional versions.
muhammad@f219340-virtual-machine:~/Desktop$ echo
muhammad@f219340-virtual-machine:~/Desktop$ touch
touch: missing file operand
Try 'touch --help' for more information.
muhammad@f219340-virtual-machine:~/Desktop$ su
Password:
su: Authentication failure
muhammad@f219340-virtual-machine:~/Desktop$
```

“passwd” command give the access to change the password

```
muhammad@f219340-virtual-machine:~/Desktop$ su
Password:
su: Authentication failure
muhammad@f219340-virtual-machine:~/Desktop$ passwd
Changing password for muhammad.
Current password:
New password:
BAD PASSWORD: The password is the same as the old one
New password:
BAD PASSWORD: The password is shorter than 8 characters
New password:
BAD PASSWORD: The password fails the dictionary check - it is based on a dictionary word
passwd: Have exhausted maximum number of retries for service
passwd: password unchanged
muhammad@f219340-virtual-machine:~/Desktop$
```

“df” command shows the disk space usage.

```

muhammad@f219340-virtual-machine:~/Desktop$ df
Filesystem      1K-blocks    Used Available Use% Mounted on
tmpfs            396352      1964    394388   1% /run

muhammad@f219340-virtual-machine:~/Desktop$ mkdir file

```

To Change file mode and add or remove permission of a file.

```

muhammad@f219340-virtual-machine:~/Desktop$ mkdir file
muhammad@f219340-virtual-machine:~/Desktop$ what is chmod
Command 'what' not found, did you mean:
  command 'jhat' from deb openjdk-8-jdk-headless (8u382-ga-1~22.04.1)
  command 'chat' from deb ppp (2.4.9-1+ubuntu3)
  command 'wcat' from deb sac (1.9b5-3build1)
  command 'wham' from deb wham-align (0.1.5-8)
  command 'phat' from deb phat-utils (1.6-2build2)
Try: sudo apt install <deb name>
muhammad@f219340-virtual-machine:~/Desktop$ chmod a+x file
muhammad@f219340-virtual-machine:~/Desktop$

```

“chown” command change the owner of the file.

```

muhammad@f219340-virtual-machine: ~/Desktop
muhammad@f219340-virtual-machine:~/Desktop$ ls -l file1.txt
-rw-rw-r-- 1 muhammad muhammad 20 18:04 7 فروري file1.txt
muhammad@f219340-virtual-machine:~/Desktop$

```

“ps” command show process and “top” command show the statistics.

```

muhammad@f219340-virtual-machine: ~/Desktop
muhammad@f219340-virtual-machine:~/Desktop$ ps
  PID TTY          TIME CMD
  4480 pts/0    00:00:00 bash
  4561 pts/0    00:00:00 ps
muhammad@f219340-virtual-machine:~/Desktop$ top

```

```
muhammad@f219340-virtual-machine: ~/Desktop

```

“KILL” command kill the operation by process id and “kill all ” command kill all the roots.

```
muhammad@f219340-virtual-machine: ~/Desktop
muhammad@f219340-virtual-machine:~/Desktop$ kill
kill: usage: kill [-s sigspec | -n signum | -sigspec] pid | jobspec ... or kill
-l [sigspec]
muhammad@f219340-virtual-machine:~/Desktop$ killall
Usage: killall [OPTION]... [--] NAME...
    killall -l, --list
    killall -V, --version

-e,--exact          require exact match for very long names
-I,--ignore-case    case insensitive process name match
-g,--process-group  kill process group instead of process
-y,--younger-than   kill processes younger than TIME
-o,--older-than     kill processes older than TIME
-i,--interactive    ask for confirmation before killing
-l,--list           list all known signal names
-q,--quiet          don't print complaints
-r,--regex          interpret NAME as an extended regular expression
-s,--signal SIGNAL  send this signal instead of SIGTERM
-u,--user USER      kill only process(es) running as USER
-v,--verbose        report if the signal was successfully sent
-V,--version        display version information
-w,--wait           wait for processes to die
-n,--ns PID         match processes that belong to the same namespaces
                    as PID
```

"Clear" command it clears the whole screen.

A terminal window with a dark background. The title bar at the top reads "muhammad@f219340-virtual-machine: ~/Desktop". Below the title bar, the prompt "muhammad@f219340-virtual-machine: ~/Desktop\$" is displayed in green and blue text. The rest of the terminal area is empty, indicating that the screen has been cleared.

```
muhammad@f219340-virtual-machine: ~/Desktop$
```
